TO THE WHOLESALE TRADE

TERMS AND CONDITIONS OF SALE

5 percent discount and free packing and boxing will be allowed except for B&B stock when cash in full is sent with order. C.O.D. shipments will be made when order is accompanied by one fourth of full amount of order in cash. Please do not ask for C.O.D. shipments otherwise.

To those who wish charge accounts our terms are strictly 30 days from date of invoice net. Such accounts will be open to those who have established credit with us or can give satisfactory trade and bank reference, allowing sufficient time for investigation.

QUANTITY RATES, PACKING CHARGES, ETC.

5 plants at 10 rate; 50 plants at 100 rate; and 250 plants at 1000 rate.

Boxes and bales charged for at actual cost of material.

Transportation charges are to be paid by customer, and prices are quoted F.O.B. our shipping point.

Whenever possible please state mode of transportation, routing, etc., otherwise we will use our best judgment, assuming no responsibility.

GUARANTEE OF STOCK, CLAIMS, ERRORS, ETC.

We put forth every effort to supply only healthy, true-to-name stock, and will replace upon proper proof any stock that is found otherwise; but under no circumstances will we be responsible for more than the original purchase price.

Claims for errors, shortages, etc., must be made within ten days from date of invoice to receive consideration. Unpack shipments upon arrival, and report any claim promptly.

All stock quoted, subject to market changes, supply being exhausted or being destroyed by agencies of nature beyond our control.

We reserve the right to reject any or all of your order, refunding any payments made.

Shipments become the property of the purchaser when received by transportation company, and we shall not be responsible for any damage while in transit. We are willing at all times to help you establish any just claim for such damage.

INSPECTION

A certificate of inspection will accompany each and every shipment made by us.

LOCATION

McMinnville is located in Middle Tennessee, on N.C.&St.L. Railroad, 72 miles east of Nashville, 138 miles west of Knoxville, on highway 70.

NATIVE AZALEAS

AZALEA CUMBERLANDENSE. Flaming Red.

	Per 10	Per 100
6 to 12 inch clumps.....	\$ 2.00	\$ 15.00
12 to 18 inch clumps.....	2.50	20.00
18 to 24 inch clumps.....	3.00	25.00

The Azalea Cumberlandense is without a doubt the same as the Bakeri. It was given the name Bakeri first, and it might be that the name Bakeri should have priority. However we prefer to call it the Cumberlandense as this name describes its Cumberland Plateau habitat so fittingly. This is one of the late flowering species. Flowers appear after leaves are full grown. Flowers are flaming red.

AZALEA CALENDULECEA. Yellow to Orange.

6 to 12 inch clumps.....	1.50	10.00
12 to 18 inch clumps.....	2.00	15.00
18 to 24 inch clumps.....	2.50	20.00
2 to 3 feet clumps.....	3.00	25.00

The Calendulecea is an early flowering species. Its flowers appear before or as the leaves appear. It is a yellow or light orange color and not flaming red as it has been described many times. It is very easy to confuse this azalea with some of the late flowering species as they all grow together. They are found only above the 3000 foot elevation.

AZALEA CANESCENS. Light Pink.

12 to 18 inch clumps.....	1.50	12.50
18 to 24 inch clumps.....	2.00	15.00
2 to 3 feet clumps.....	3.00	20.00

The Azalea Canescens is very confusing. It seems that this species has become closely associated with the Azalea Alabamense, that has spread from northern Alabama into Tennessee, and the Azalea Nudiflorum which has spread from the northeastern part of Tennessee down into the southern mountains, and has become infused with this mixture. It would seem that the Canescens is a species halfway between the two mentioned above.

AZALEA ARBORESCENS. White or Pinkish.

12 to 18 inch clumps.....	2.50	20.00
2 to 3 feet clumps.....	4.00	35.00

The Azalea Arborescens is one of the late flowering species. Flowers are larger than any of the other native azaleas. They are creamy white, sometimes tinged with pink. This species is found only above the 3000 foot elevation.

AZALEA NUDIFLORUM. Pinxter Flower.

12 to 18 inch clumps.....	2.50	20.00
18 to 24 inch clumps.....	3.00	25.00
2 to 3 feet clumps.....	4.00	35.00

The Azalea Nudiflora is very difficult to describe, as it has been described in so many different ways. Some say that this azalea is found in low swampy places. I do not agree, as far as I know, it is found only above the 3000 foot elevation. I believe this species has been confused with the Canenses as it is also a pink. The Nudiflora has smooth winter buds, flowers pink or carmine. Flowers appear before or with the leaves.

AZALEA VICOSA. White Tinged.

	Per 10	Per 100
12 to 18 inch clumps.....	1.50	10.00
18 to 24 inch clumps.....	2.00	15.00
2 to 3 feet clumps.....	2.50	20.00

This azalea is found in low swampy places. Flowers expanding later than the leaves, flowers white tinged with pink, very fragrant.

AZALEA. Mixed Colors.

	Per 10	Per 100
6 to 12 inch clumps.....	1.50	10.00
12 to 18 inch clumps.....	2.00	15.00
18 to 24 inch clumps.....	2.50	20.00
2 to 3 feet clumps.....	3.00	25.00

In this group of Mixed Azaleas I cannot tell you what you would get. These are leftovers and all colors put together to make up a mixture.

SPECIAL OFFER

1,000 Azaleas in lining out sizes of
your own selection for only \$40.00
